

South Butler County School District

The chart below contains each teacher's name and the corresponding costs to the South Butler County School District for their teaching salary, co-curricular salary, and department or grade level chairperson salary; benefits costs, including health insurance, insurance in lieu of payments, dental and life insurance; pension contribution; social security contribution; Medicare insurance contribution; disability insurance; and workers compensation coverage. The benefits costs are calculated based on 12 months of coverage. For teachers new to the District in 2008-09 the benefits costs have been pro-rated based on their start date. The last column (far right) contains the total annual cost of salaries and benefits per teacher. The "In Lieu of Payments" column represents the annual cash payments to the teachers who do not need health insurance coverage from the District. The "Employee Health Insurance Contribution" column represents the annual co-premiums for health insurance coverage contributed by the teacher. The "Total Salary" column is based on last year's salaries and the figures do not include the Board's proposed raises for the 2008-2009 school year. The Business Office of the South Butler County School District prepared the financial information contained in this chart.

South Butler County School District

The chart below contains each teacher's name and the corresponding costs to the South Butler County School District for their teaching salary, co-curricular salary, and department or grade level chairperson salary; benefits costs, including health insurance, insurance in lieu of payments, dental and life insurance; pension contribution; social security contribution; Medicare insurance contribution; disability insurance; and workers compensation coverage. The benefits costs are calculated based on 12 months of coverage. For teachers new to the District in 2008-09 the benefits costs have been pro-rated based on their start date. The last column (far right) contains the total annual cost of salaries and benefits per teacher. The "In Lieu of Payments" column represents the annual cash payments to the teachers who do not need health insurance coverage from the District. The "Employee Health Insurance Contribution" column represents the annual co-premiums for health insurance coverage contributed by the teacher. The "Total Salary" column is based on last year's salaries and the figures do not include the Board's proposed raises for the 2008-2009 school year. The Business Office of the South Butler County School District prepared the financial information contained in this chart.

First Name	Last Name	Teaching Salary	Co-Curricular Salary	Chair or Grade Level Fac. Salary	Total Salary	District Paid Employee Benefits										Total Benefits	Total Salaries & Benefits
						Employee Annual Health Insurance Contribution	Health Insurance	Insurance In-Lieu of Payments	Dental Insurance	Pension Contribution	Social Security Contribution	Medicare Insurance Contribution	Life Insurance	Disability Insurance	Workers Compensation
