

# South Butler County School District

## Negotiations Update

May 30, 2017

To provide the public with accurate information regarding the status and progress of the negotiations with the South Butler County Education Association (PSEA/NEA), the Board is posting this Negotiations Update, which summarizes the Board's efforts to reach a new Collective Bargaining Agreement ("CBA" or "Agreement") with the District's teachers.

- The parties held a bargaining session on Tuesday, May 23, 2017 at 6:00 p.m. The outstanding issues continue to be term of contract, wages, health care, retiree health care, tuition reimbursement, open house participation, length of in-service work days, and whether 10 minutes of time in a school day may be used for instruction, if needed. The bargaining session ended without an agreement on any of the outstanding issues.
- A copy of the Board's most recent Proposal is available on the School District website: [www.southbutler.org](http://www.southbutler.org). Please click on the May 1, 2017 Negotiations Update which is located on the upper right-side of the School District's home page.
- The Board continues to work with the State Mediator, Mr. Lavery, to schedule additional bargaining sessions.
